

National Seminar on Ceramic and Glass Technology For a Sustainable Future: Challenges, Opportunities, and Innovation (CGTSF-2026)

7-8 AUGUST, 2026

VENUE: CSIR-CGCRI, KOLKATA

Organized by

Indian Institute of Ceramics
Kolkata

Jointly With

CSIR-Central Glass & Ceramic
Research Institute,
Kolkata

In Association with

All India Pottery
Manufacturers' Association

ABOUT THE CONFERENCE

India has firmly established its position in almost all the segments of Industrial glass and ceramics namely container glass, flat glass, fiberglass, and specialty glass, ceramic tiles, sanitary ware, crockery, refractories etc. Indian manufacturers are strengthening their positions in the global arena and establish their presence in the new territories. .

Ceramic and glass technologies are revolutionizing industries with sustainable innovations. Key developments include:

Ceramic advancements:

3D printing, and advanced ceramics materials.

Glass innovations:

Smart glass, self-cleaning glass, and photovoltaic glass for energy efficiency.

Sustainability focus:

Energy-efficient production, recycling, and decarbonization

Challenges:

Scalability, cost, and regulatory frameworks.

Future prospects:

Increased adoption in construction, automotive, and aerospace, with new applications emerging.

These technologies are driving a more sustainable future, with industry-academia collaborations fueling breakthroughs. These opportunities obviously come with new challenges whether it is in technological facade or machinery facade or raw material facade. In this perspective, Indian Institute and in association with of Ceramics jointly with CSIR – Central Glass & Ceramic Institute with All India Pottery Manufacturers Association will organize a two-days seminar focusing the opportunities, challenges of the Indian glass and ceramic industries for a sustainable future.

FOCUS AREAS OF THE SEMINAR

- ☑ Raw materials
- ☑ Ceramic tiles
- ☑ Potteries and sanitaryware
- ☑ Engineering & technical ceramics
- ☑ Ceramics for energy and environment
- ☑ Refractories
- ☑ Glass
- ☑ Bioceramics
- ☑ Recycling and waste utilization

IMPORTANT DATES –

Submission of abstract: 6 July, 2026

Acceptance notification: 10 July, 2026

Last date of registration: 24 July, 2026

ORGANISERS

Indian Institute of Ceramics

The Institute was registered in the year 1974, initially to train manpower in Ceramics, for service to the industry. The entry level to the course is science graduate or diploma in ceramics. The aim is to promote the study and practice of Ceramic Science, Technology and Engineering to extend knowledge in Ceramics, to issue certificates by conducting examination as per prescribed syllabus. Majority students come from industry, so that after qualifying the course they can provide better service as well as better career prospect. Many students passed out from this Institute pursued for higher studies from premium Institution and contribute in educational field.

CSIR–Central Glass & Ceramic Research Institute

CSIR–Central Glass & Ceramic Research Institute (CSIR–CGCRI), a constituent laboratory of the Council of Scientific and Industrial Research (CSIR), was established in 1950 in Kolkata. The institute is engaged in research and development in the field of ceramics and glass. With the advent of time, the institute aligned itself to cater to the nation's needs and the international development in the field of glass and ceramic science and technology. The Institute has been serving various sectors in the country, including strategic, societal and general industries. It has one of the best facilities in the country for the processing and characterization of ceramics and glass materials. International collaboration with important R&D institutes in a large number of countries gives the Institute an opportunity to keep itself abreast with the latest developments in the key areas it is pursuing.

All India Pottery Manufacturers' Association

All India Pottery Manufacturers' Association (AIPMA), established in 1948, is one of India's oldest and respected national-level industry associations representing the pottery and ceramic sector. For over 75 years, AIPMA has played a pivotal role in promoting technological advancement, quality upgradation, standardisation, and capacity building across the ceramic value chain. The Association acts as a strong interface between industry, academia, research institutions, and government bodies, fostering collaboration and policy advocacy. AIPMA actively encourages research, innovation, skill development, and knowledge dissemination through conferences, publications, and technical forums. Through its quarterly journal Indoceram of AIPMA and industry initiatives, the Association continues to contribute significantly to the growth, modernization, and global competitiveness of the Indian ceramics and pottery industry.
